this is a penetrating study of many aspects of life thought and everyday existence in scandinavia as experienced through the author s 9 year residence in the enlightened far north in the 1960s robert corfe is primarily known as a thought provoking writer of books published in the 21st century but this work comprises a selection of his articles published in the finnish press popular magazines and learned journals in the 1960s the collected articles are put into context for a contemporary readership by a lively introductory chapter entitled seeing the future through the past which describes how scandinavia was 50 years in advance of britain in terms of political thinking and social development

and now britain has caught up and shares in the benefits and also the dis benefits of a modernised technological society of considerable interest are the articles on british society and its problems as viewed through the eyes of a british resident acclimatised to the cultural environment of finnish life the articles reflect clearly the development of the author s political ideas on the need for a classless society in more effectively contributing to communal prosperity and internal harmony the scandinavians enviable policy of neutrality and disengagement from the conflicts of the great power blocs in achieving national security is highlighted as contributing to the happiness of their people in view of an impending new cold war between russia and the west the arguments developed are perhaps of greater significance today than when they were formulated more than 40 years ago many of these ideas were to be given greater depth in the author s major works published many years later in the 21st century perhaps most entertaining in this collection is the delicious satirical story what the watchdog saw a savage attack on the absurdities of the british far left as well as those of the far right as a percipient introduction to the mindset of the enlightened scandinavian people based on both scholarship and personal experience this book could hardly be bettered for such a purpose

cold war history has emphasized the division of europe into two warring camps with separate ideologies and little in common this volume presents an alternative perspective by suggesting that there were transnational networks bridging the gap and connecting like minded people on both sides of the divide long before the fall of the berlin wall there were institutions organizations and individuals who brought people from the east and the west together joined by shared professions ideas and sometimes even through marriage the volume aims at proving that the post wwii histories of western and eastern europe were entangled by looking at cases involving france denmark poland romania switzerland and others

citizens are at the heart of any meaningful definition of democracy so what does it say about the health of canadian democracy when fewer citizens are exercising their right to vote and party membership rolls are shrinking is an increasingly well educated citizenry turning away from traditional electoral politics in search of more meaningful forms of democratic engagement or is an ever wider swathe of canadian society simply disengaging from politics altogether this volume draws

on a rich array of public opinion data to determine how engaged Canadians are in the country's democratic life and which Canadians are most and least engaged. Comparisons are made across generations and educational levels between women and men and have and have nots in Canadian society today. Canadians are compared with earlier generations and with the citizens of other established western democracies. The first comprehensive assessment of citizen engagement in Canada. This volume raises challenging questions not just about the interests and capabilities of Canadians as democratic citizens but also about the performance of our democratic institutions. This is essential reading for politicians and policy makers, students and scholars of Canadian politics and all Canadians who care about the quality of Canadian democracy.

A selection of the papers presented at the 2011 International Conference in Seoul, July 2008, offers a view of the panorama of social studies on armed forces and conflict resolution in a context of fast-moving change that renders many preceding theoretical provisions obsolete.
